

teleN Information

Frank Roth

teleN - What is it? (core business)

teleN is an independent management consultancy and sales company for services in telecommunications & IT

teleN has been operating as consultancy service provider since 1998 together with established telco companies (Telekom AG, Colt, Vodafone, Versatel, QSC, Telefonica O2 etc. and Cloud Providers etc.).

Which services can you expect?

teleN offers integrated consulting in accordance with your professional demands in the light of cost, resources and process optimization as well as quality.

- voice services (cost optimization, accounting revision, service telephone numbers, PBX planning, Voice over IP, SIP, UCaaS)
- data services (cost optimization, internet access, point-to-point connections, WAN network connections at national and international locations (VPNs), co-location)
- managed service (managed workspace, business continuity, security service, managed e-mail, managed backup, SaaS and ASP) and telecom expense management
- cellular phone business (cost optimization, framework contracts, fleet management, mobile data solutions)

Why would you benefit from our services?

- It is a priority for us to optimize your IT & telecommunications business. Here, **teleN** acts from a neutral position with regard to telecommunications & IT providers and can effectively pursue your needs.
- We create optimal solutions for your business that suit your demands. Because of our market overview and expertise, gathered over years, we use our experience and apply our insights to your business needs.
- Years of relations with providers enable us to achieve faster and better results for our customers.
- For you this means: You will not need to engage with the complex and partly confusing matters of the telecommunications market by yourself. Instead, you will be able to focus on your core business.

How would you benefit from us?

- independent consulting
- customer-oriented solutions
- proven know-how
- market transparency
- excellent contacts with telecommunication and IT providers
- continuing guidance and time-saving
